AlHabshi Engineering Consultants Office

INTRODUCTION

Al-Habshi Engineering Consultants Office (ACO) was established in April of 1994 for the purpose of providing a broad range of engineering services to both the local and international markets. Initially, to gain experience, ACO needed to draw upon the expertise of other internationally established consultants which led to the creation of Strategic Alliances and the signing of Association Agreements with O'Sullivan & Graham (OS&G) in the UK, and with Development Design Consultants (DDC) from Bangladesh. Both these firms have a vast experience in the fields of Architecture and Civil Engineering, and collectively have over 2,000 employees.

Al-Habshi Engineering Consultants Office covers the complete spectrum of engineering from Project Identification, Appraisal, Planning, Design, Contract Documentation, Tender Analysis, to Construction Supervision, and includes the establishment of Maintenance Systems and Rehabilitation Measures.

Almost all of the engineering disciplines are covered by Al-Habshi and achieved through the extensive in-depth knowledge and the massive scope of experience brought together by ACO and its many associates. With a large workforce available, we employ many specialists ready to be placed into various projects.

Al-Habshi Engineering Consultants Office (ACO) is a leading Consulting Office in Kuwait and is capable of providing engineering services to fit any project requirement, both in Kuwait and Internationally. The emphasis in our company has always been on both the quality and on good communication, and because of that, a lot of our clients from both Government and Private Sectors are repeated clients.

We are further registered/ approved in the following Local Authorities & Organizations: -

- Kuwait National Petroleum Company (KNPC)
- Ministry of Finance
- Ministry of State Affairs, Consultants Selection Committee
- Kuwaiti Federation of Engineering Offices & Consultancy Houses
- Ministry of Public Works
- Kuwait Oil Company (KOC)

QUALITY POLICY

Al-Habshi Engineering Consultants Office believes that the state of Kuwait is in a position to be counted amongst world leaders thanks to its innovation in many aspects, but most importantly in business projects.

The advancement of technology is always led by the need and desire to be better, in its efficiency and value. The adoption of new ideals and goals when considering alternatives for clients has always been the most important in the mind of ACO, and the end result is always one of mutual satisfaction for all parties involved. The promotion of Kuwait, both materially and socially as the result of the service excellence and the quality of the finished product has become synonymous with projects undertaken by ACO.

We at Al-Habshi Engineering Consultants Office (ACO), know that we can contribute to the overall image because we are committed to our approach of quality, service and detail. Please call us on the numbers listed to arrange for a meeting where we can discuss your requirements. Alternatively, you may send us an e-mail at admin@alhabshikw.com or contact us via the Internet at www.alhabshikw.com

We are accredited with the ISO 9001: 2015 Certification

CONSULTANT PROFILE - FIRM'S DATA

Al-Habshi Engineering Consultants Office was established, and immediately linked up to associates with international multidisciplinary capabilities to enable ACO to cater to all their clients' needs.

The following is a sample of the major clients held by ACO.

The Kuwait Fund, The Arab Economic Fund, Islamic Development Bank, BADEA, IFRC, ARC, USAID. The Public Institution for Social Security, Wafra Real Estate Company, Commercial Real Estate Company, Kuwait National Petroleum Company, Kuwait Oil Company, Joint Operations Wafra, plus other Public and Private accounts.

ACO's services extend from Feasibility Studies, Conceptual Design and Development, Project Management and all the aspects which are part of the monitoring any operation. Covering all disciplines which range from Architecture including but not limited to façade consultancy, interior design, hardware consultancy, ergonomic study, acoustics, sustainability, landscape signage, workshop & rack design, medical equipment and laboratory consultancy and fire engineering. Our civil design consultancy services include hardscape, infrastructure, road marking, etc. Structural consultancy ranges to covering concrete, steel, wood, brick structures either blast resistant or not. MEP Services range from the design of high voltage, power generation, transmission, building services, and low voltage services covering ICT, AV and Fire.

All mechanical work includes water supply drainage, sanitary, irrigation treatment and network, HVAC, CFD Studies.

International Consultants such as Design Consultants, PMU Contractors, CFCL, SPECS, TEKFN, PETROFAC, CHOVET, URS, ECC and FLUOR have been associated with ACO on a Project-to-Project basis for certain specialized projects, to cope with the demand from both the local and the international arena.
